Mission

The University Health Center’s mission is to prevent, modify and remove health-related barriers to students’ academic success and personal development. Additional roles for the University Health Center are to provide prevention, health promotion, and education services that enable students to take full advantage of their academic experience and to serve as the health and medical resource for the university community.

The University Health Center provides a wide variety of medical and health care services for currently enrolled University of Oregon students who have been assessed the university health fee.

Paying

The University Health Center charges for office visits with all professional staff, laboratory tests, x-rays, prescriptions, immunizations, dental care, physical therapy, and other special services and supplies. There is a missed-appointment fee for failure to cancel a scheduled appointment.

Charges are kept at the lowest possible level with the support of student health fees. Charges can be billed to students’ University of Oregon student account or paid by cash or check.

Students who are referred out for medical services not available at the University Health Center or who seek medical or health services elsewhere in the community are fully responsible for all expenses.

Information

Appointments 541-346-2770

Enrolled students are encouraged to call ahead for appointments. Calls before 10 a.m. are more likely to receive a same day appointment, so call early.

Clinic Hours

Fall through spring terms: Open Monday through Friday 9-5, Saturday 10-2, and closed Sunday. Summer session: Open Monday through Friday 9-4:30. Closed weekends during summer. The University Health Center is closed between most terms.

For current clinic hours go to: http://healthcenter.uoregon.edu

After-hours Care & Nursing Advice 541-346-2770

When the University Health Center is closed, students may call the After-hours Nurse Advice Line to speak to a registered nurse. Information on local emergency rooms and after-hours clinics for urgent or emergency care is also available in our after-hours message or on our website.

Off Campus After-hours Care

Students seen at an outside facility will be responsible for any charges incurred.

UNIVERSITY HEALTH CENTER

Insurance

Health insurance is not required to use the University Health Center but we do recommend that students have insurance coverage.

The University Health Center does not bill insurance companies. Students are responsible for directly billing their own insurance company with an itemized bill that will be provided upon request.

A voluntary student health insurance plan is available through the health center.

Appointments 541-346-2770

Enrolled students are encouraged to call ahead for appointments. Calls before 10 a.m. are more likely to receive a same day appointment.

Immunizations

To register for classes, all students must show proof of two measles and mumps (or MMR) vaccinations by state law.

Confidentiality

All medical care and treatment provided at the University Health Center is confidential. Medical records, students’ bills, and other patient information are not released without written authorization from the student.

Language Line

Students who speak English as a second language may request access to Language Line translation during their medical appointments, or may bring a friend to the appointment to help with translation.

Medical History

Each new student should submit to the University Health Center a completed health history form.

UNIVERSITY HEALTH CENTER

Mission
The University Health Center’s mission is to prevent, modify and remove health-related barriers to students’ academic success and personal development. Additional roles for the University Health Center are to provide prevention, health promotion, and education services that enable students to take full advantage of their academic experience and to serve as the health and medical resource for the university community.

The University Health Center provides a wide variety of medical and health care services for currently enrolled University of Oregon students who have been assessed the university health fee.

Insurance
Health insurance is not required to use the University Health Center but we do recommend that students have insurance coverage.

The University Health Center does not bill insurance companies. Students are responsible for directly billing their own insurance company with an itemized bill that will be provided upon request.

A voluntary student health insurance plan is available through the health center.

Paying
The University Health Center charges for office visits with all professional staff, laboratory tests, x-rays, prescriptions, immunizations, dental care, physical therapy, and other special services and supplies. There is a missed-appointment fee for failure to cancel a scheduled appointment.

Charges are kept at the lowest possible level with the support of student health fees. Charges can be billed to students’ University of Oregon student account or paid by cash or check.

Students who are referred out for medical services not available at the University Health Center or who seek medical or health services elsewhere in the community are fully responsible for all expenses.

Information
Appointments 541-346-2770
Enrolled students are encouraged to call ahead for appointments. Calls before 10 a.m. are more likely to receive a same day appointment.

Immunizations
To register for classes, all students must show proof of two measles and mumps (or MMR) vaccinations by state law.

Confidentiality
All medical care and treatment provided at the University Health Center is confidential. Medical records, students’ bills, and other patient information are not released without written authorization from the student.

Language Line
Students who speak English as a second language may request access to Language Line translation during their medical appointments, or may bring a friend to the appointment to help with translation.

Medical History
Each new student should submit to the University Health Center a completed health history form.
Primary Care
Our medical and nursing staffs provide a wide range of primary health care services, with an emphasis on health promotion and disease prevention. We provide care for students with acute injuries and illnesses as well as for students with chronic health problems. We encourage students with ongoing health needs to establish a relationship with one of our physicians or nurse practitioners for continuity of care, and for coordination of their health care with their usual practitioner from home. Students who need immediate attention may call or walk in when the University Health Center is open, including Saturdays. Appointment calls are encouraged; however students who walk in can make same-day appointments at the reception area or see a triage nurse for immediate assessment.

Asthma & Allergy Care
Our medical and nursing staffs are proficient in assessment and treatment of allergies and asthma. Students receiving allergy shots elsewhere can bring their own schedules and antigens, which can be stored at the University Health Center and administered by registered nurses.

Dental Clinic
The Dental Clinic provides preventive dental services and assessment of painful dental conditions by a dentist and dental hygienists. Services include dental examinations, x-rays, teeth cleaning, fluoride treatment, oral cancer screening, wisdom teeth assessment, dental referrals, dental education and product advice.

Medical Laboratory Services
The University Health Center laboratory provides a variety of tests in a high-complexity lab. Laboratory tests are performed at the requests of both university and community practitioners.

Mental Health Services
Mental health evaluations and treatment including medication management are provided by psychiatrists, a psychiatric nurse practitioner, primary care physicians and nurse practitioners.

Nutrition Education
Make an appointment with our registered dietitian to discuss everything from meal planning to food intolerances and special diets.

Pharmacy Services
The University Health Center’s full service retail pharmacy offers over-the-counter and prescription items at reduced prices. Our pharmacy can fill prescriptions from both University Health Center practitioners and outside practitioners. Check our prices before filling prescriptions elsewhere. Registered pharmacists are available to answer students’ medication questions.

Physical Therapy & Sports Medicine
Physical therapists and athletic trainers skilled in the evaluation and treatment of orthopedic and sports-related conditions are available to all university students. Services include acute care and pain management, care of spine-related conditions, manual therapy, pre and post-surgical rehabilitation, taping, bracing, orthotic fabrication, individualized exercise programs, video gait analysis, massage and aquatic rehabilitation.

Sexual Health Services
Physicians and nurse practitioners provide sexual health care services, counseling, and tests to all enrolled students. Services include physical exams, fitting and prescription for all birth control methods including IUDs, emergency contraception, Pap smears, breast and testicular exams, transitional hormonal therapy, pregnancy testing and counseling. Well-Duck exams, sexual health counseling, sexual health barrier methods, and testing for all sexually transmitted infections. Students are welcome to bring a friend or family member to the appointment.

LGBTQ-welcoming in all services.

Travel Clinic
Formal travel consultations, immunizations, international travel medical information and prescriptions are available through the Travel Clinic. Appointments may be made by calling the travel Clinic located in the Nurse Specialty Clinic.

X-ray
The radiology department provides Computerized Radiography for ordering by University Health Center practitioners and outside practitioners.

University Health Center Services

Student Health Advisory Committee
Join SHAC and serve as a liaison between the student body and the Health Center. This leadership opportunity not only advises our director but ensures all students know about our resources and have access.

http://healthcenter.uoregon.edu/shac/index.html

Health Promotion Services
Our mission is to develop healthy campus communities that support students in reaching their full potential by providing health promotion, education and prevention information and services. In addition, we are committed to providing student leadership opportunities under the guidance of social justice within a public health framework.

Professional staff and peer health educators work together to create a campus environment that promotes health and the prevention of disease. To learn more or to apply to be a Peer Health Intern visit our website: http://healthed.uoregon.edu

Students may also drop by and meet with a peer educator in the lobby of the Health Center. Peers are available to answer students’ questions about wellness and to provide information on resources.
