Unexcused: Olivia Reynoldson, James Bowlin

Meeting called to order

Introductions: “What is your favorite part of campus on a sunny day?”

Announcements/Minutes:
  a) Approval of February 13th minutes

Justine Carpenter (Director of Non-Traditional Student Engagement)
Has office in Oregon Hall. Non-Traditional students includes all students who self identify as such but generally students over 25 years of age, Veterans, those with children or are caretakers. Justine estimated about 3,000 UO students identify as non-traditional students.
Services include a Non-Trad Student Union which is recognized by ASUO, UO Veteran’s Center, scholarships, Student Support Services (SSS) which is a federally funded program.

Anne Marie
We are moving forward with name and branding for student health insurance. Eliminated the name “DUCK CARE” and moving forward with “UO Care”.
More branding logos were seen and discussed. Students collectively decided on favorite designs. Several students expressed the concern over having any brand preferring just UO Care, stacked, with a box around it.

3 Sign-Up Sheets
  1) health professional panel
  2) WRIHC sign up
  3) Housing Fair

Directors Report (Paula)
Recognition of the unfortunate death of student from possible correlation with meningitis. Hard to tell the direct reason, but meningitis most probable cause.
Four meningitis cases thus far with one death. All students were identified to have Serotype B which up until recently there has been no vaccine to cover. There are two types of vaccinations available to students, a 2-shot series and a 3-shot series. The Health Center staff has been busy encouraging students to come in and get vaccinated. There will be a large vaccination clinic at Matt Knight Arena on Marcy 2-5. SHAC will likely be asked to help communicate the vaccination clinic.

4:10 Adjourn

Next meeting Feb. 27th, FAC 202 from 3-4
